PROFILE

Engineering student specializing in Electrical Engineering, Electronics & Automation (3EA), seeking an entry-level technical position. My preparatory classes (CPGE) and engineering school background have provided a strong foundation in analysis, rigor, and problem-solving. Autonomous, patient, and dedicated, I quickly adapt to assigned tasks.

SKILLS

- Flexibility and adaptability
- Autonomous work ethic
- Fast learner
- Patience
- Empathy
- Rigor & attention to detail

INTERESTS

- Cycling (5 years of practice)
- Passionate about triathlon
- Bicycle maintenance & repair
- RC Model building

KEY PROJECTS

- **TIPE Project** - Position control system for aircraft wing flaps
- **Mechanical Engineering** - Steel bike frame conversion to fixed gear (fixie)

Valentino Verdari

PROJECTS & EXPERIENCE

09/2025 - 05/2026

TIPE Academic Project

Position Control System for Aircraft Wing Flaps

- Designed and instrumented an experimental wing scale model
- Identified system parameters and dynamic characteristics
- Designed the control feedback loop and implemented a digital controller

05/2022 - 05/2023

Volunteer Work

Compiègne Triathlon Club | Choisy-au-Bac

- Course safety, traffic management, and athlete guidance
- Lead cyclist and broom wagon rider across various races

EDUCATION

09/2026 - Present

ENSEEIHT - Toulouse INP | Toulouse, France

Master's Degree in Engineering: 1st Year, Department of Electrical Engineering, Power Electronics & Automation (3EA)

09/2024 - 06/2026

Lycée Marcelin Berthelot | Saint-Maur-des-Fossés, France

Intensive Preparatory Classes (CPGE): PCSI then PSI (Physics, Mathematics & Engineering Science)

09/2023 - 06/2024

Lycée Pierre d'Ailly | Compiègne, France

High School Diploma (Baccalauréat): Mathematics & Physics-Chemistry majors - Honors (Mention Bien)

2024

Lycée Pierre d'Ailly | Compiègne, France

Aeronautics Initiation Certificate (BIA) - High Honors (Mention Très Bien)
